How to Clean an Indoor Air Duct with Pictures wikiHow

You don't have to clean the main air ducts, but you can do it if cleaning out as much dust as possible is your goal. First, check to see if you have rectangular duct work. If so, go ahead and slide the drives down with the use of pliers. Then, pull the caps off of the slips. The terminology may sound technical, but it should be pretty easy to figure out when you're standing in front of it.

4 Ways to Clean a Keyboard wikiHow

To clean a keyboard, start by shutting down the computer and detaching the keyboard, if possible. Next, for a quick cleaning, turn the keyboard upside down and blow out any debris with a can of compressed air. Then, clean the sides of the keys with a cotton swab dipped in isopropyl alcohol. For a more thorough clean, gently pry all of the keys up using a small screwdriver. Once the keys are

Compressed Air for Cleaning Computer Keyboards It's

Air compressors, such as the one you might use to fill your car's tires, can damage the keyboard with too much pressure or with the chemicals often present in the air. A gas duster is lower pressure and uses chemicals that won't damage your computer if you use the duster correctly. If you pull the trigger on the duster when the can is upside down, the chemicals will spray out as a liquid
