Sliding Miter saw is a specialized type of saw that allows you to make accurate crosscuts. Considering how crosscuts are important, a miter saw is an inevitable tool in any wood workshop. It also allows you to make miter cuts at any of your preferred and applicable angles. When it comes to shopping for this tool, it is quite cumbersome.

However, there are some tricks of the trade you can apply to increase the cutting capacity, including a sliding miter saw. A sliding miter saw has all the features of a compound miter saw, but similar to a radial arm saw, this allows you to move the blade forward and backward. This provides the potential for cutting at an increased length.

Our winner is a non-sliding 10 inch compound miter saw, while the LS1016L is basically the big brother... also a 10 inch compound miter saw, but has a sliding mechanism.

The sliding version is of course more expensive, but it otherwise provides a lot of the same no-frills quality that you get with our winner, the LS1040.
